2001 ANNUAL REPORT

Executive summary on 2001 Missouri vehicle stops

- Background
- Statewide Findings
- Analysis by Attorney General Nixon
- Appendix A: Local traffic stops in proportion to state racial composition
- Appendix B: Disparity indexes for 2000 and 2001 are compared

In memoriam

Col. Jim Nunn
(1950-2002)

Col. Jim Nunn brought steady leadership and humor to the Racial Profiling Committee. Nixon and other members respond.

The Missouri Traffic Stop Report is among the most comprehensive reports of traffic stops documented by race ever produced in the United States. It is dedicated to the late Col. Jim Nunn, who served on the Attorney General's Advisory Committee for Racial Profiling for the year 2000.

Col. Nunn was a former Kansas City deputy police chief and 27-year law-enforcement veteran. He also served as president of MOVE UP, a Kansas City organization dedicated to building neighborhoods and fighting crime.

Col. Nunn provided calm and steady leadership to our committee as we worked for the first time to implement the Missouri data collection law and understand the implications of the data collected. Col. Nunn's insight helped bring a consensus between law enforcement and minority leaders in Missouri and demonstrated that people of good will, despite differing affiliations and views on an issue, can find common ground and learn from one another.

I learned a great deal from Col. Nunn, and his influence on our committee will benefit law enforcement and the state of Missouri for years to come.

Jeremiah W. "Jay" Nixon
Missouri Attorney General

"Too many of our citizens have cause to doubt our nation's justice, when the law points a finger of suspicion at groups, instead of individuals. All our citizens are created equal and must be treated equally. .... It's [racial profiling] wrong and we will end it in America."
President George W. Bush,
State of the Union address, Feb. 27, 2001

I. BACKGROUND

Concerns by the citizens of Missouri and the Missouri legislature regarding allegations of racial profiling by law enforcement prompted the passage of state law Section 590.650, RSMo (2000), which was enacted Aug. 28, 2000. Racial profiling has been defined as the inappropriate use of race by law enforcement when making a decision to stop, search or arrest a motorist.

Missouri's state law requires that all peace officers in the state report specific information including a driver's race for each traffic stop made in the state. Law enforcement agencies are required to turn in the data to the Attorney General, and the Attorney General is required to compile the data and report to the Governor no later than June 1 of each year. The law allows the Governor to withhold state funds for any agency which does not comply with the law. State law requires that all information be reported to the Attorney General's Office by March 1.

The summary of statewide racial profiling data has been provided by Scott H. Decker, curator's professor of criminology and criminal justice; Richard Rosenfeld, professor of criminology and criminal justice; and Jeffrey Rojek, doctoral candidate in criminology and criminal justice; all at the University of Missouri-St. Louis.

Table 1. 2001 statewide summary of results

Key Indicators	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Population	4,331,937	3,692,696	444,024	80,094	50,593	17,951	46,579
Stops	1,389,947	1,155,266	189,097	24,634	11,184	1,518	8,248
Searches	99,860	74,250	21,698	3,089	325	109	389
Arrests	76,567	55,984	17,788	2,206	216	98	275
Statewide population %	100%	85.24%	10.25%	1.85%	1.17%	.41%	1.08%
Disparity index	- - -	.98	1.33	.96	.68	.27	.56
Search rate	7.18%	6.43%	11.47%	12.54%	2.91%	7.18%	4.71%
Contraband hit rate	20.04%	21.86%	15.34%	10.65%	12.00%	29.36%	14.65%
Arrest rate	5.51%	4.85%	9.41%	8.96%	1.93%	6.46%	3.33%

Notes: Population figures are from the 2000 census for persons 16 and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 10.

[back to top]

II. STATEWIDE FINDINGS

This report summarizes the data from 609 law enforcement agencies in Missouri for calendar year 2001. This represents more than 91 percent of the 668 law enforcement agencies in the state. The agencies filing reports recorded a total of 1,389,947 traffic stops, resulting in 99,860 searches and 76,567 arrests. Table 1 breaks out the stops, searches and arrests by race and ethnic group.[1]

Four summary indicators are included in Table 1 that may be useful in initiating further assessments of racial profiling in traffic stops. The first, termed the "disparity index," relates each group's proportion of total traffic stops to its proportion of the population age 16 and older.

A value of 1 on this index indicates that a group's proportion of traffic stops equals its population proportion: it is neither "under-represented" nor "over-represented" in traffic stops. Values above 1 indicate overrepresentation, and those below 1 indicate under-representation.

For example, the 1,155,266 whites who were stopped accounted for 83 percent of all traffic stops in 2001. According to the 2000 Census, whites comprise 85 percent of Missouri's driving age population. The value for whites on the disparity index is, therefore, .83/.85 or .98. Whites were stopped, in other words, at just slightly below the rate we would expect based on their fraction of the population.

The same is not the case for several of the other groups. African Americans represent 10.3 percent of the population 16 years and older but 13.6 percent of all traffic stops, for a value on the disparity index of 1.33. African Americans were stopped at a rate 33 percent higher than expected based solely on their proportion of the population 16 and older.

Hispanics were stopped at a rate nearly equal to their population proportion, and Asians, American Indians, and persons of mixed or unknown race were stopped at a rate below their proportion of the population.

The values on the disparity index for the different groups can be compared directly to one another. For example, the likelihood that a black motorist was stopped is 1.35 times that of a white motorist (1.33/.98). In other words, Blacks were 35 percent more likely than whites to be stopped in 2001.

The disparity index is a gauge of the likelihood drivers of a given race or ethnic group are stopped based on their proportion of the residential population age 16 and older, and not of the population of motorists on the state's streets, roads, and highways. A group's share of the residential population age 16 and older may or may not equal its proportion of drivers. Although in most instances the two proportions should be close, that may not always be the case.

The extremely low index values for American Indians, for example, could indicate that they are underrepresented among the state's motorists. In addition, motorists from other states are stopped on Missouri's roadways. To the extent that out-of-state drivers do not reflect the race and ethnic composition of Missouri's population, the disparity index will not accurately portray the probability that Missouri residents are stopped.

The second indicator that can be used to begin assessing racial profiling is the "search rate," or the number of searches divided by the number of stops (x 100). The search rate for all motorists who were stopped is 7.18 percent. Whites and American Indians were searched at rates close to the statewide average. (Searches include searches of drivers or property in the vehicle.) Asians were searched at a rate well below the statewide average, and Blacks and Hispanics were searched at rates above the average for all motorists who were stopped.

The search rate for the different groups also can be compared directly with one another. Blacks were 1.78 times more likely to be searched than whites (11.47/6.43). Hispanics were nearly twice as likely as whites to be searched (12.54/6.43).

Conclusions about search rates are difficult to ascertain because there are various reasons for searches and a number of situations that require a search. For example, searches are almost always performed when there is an outstanding warrant or if there is an arrest.

Some searches are conducted with the consent of the driver, or because the officer observed suspected contraband in plain view, had reasonable suspicion that an individual may possess a weapon (Terry search), or other reasons. These searches may or may not result in an arrest.

The third summary indicator, the "contraband hit rate," was added to the 2001 report and did not appear in the 2000 report. The contraband hit rate reflects the percentage of searches in which contraband is found. Contraband is found in 20 percent of all searches that were conducted. However, there is considerable variation in the contraband hit rate across race and ethnic groups.

The contraband hit rate for whites was 22 percent, compared with 15 percent for Blacks and 11 percent for Hispanics. This means that, on average, searches of Blacks and Hispanics produce less contraband than do those of whites. This difference is most likely attributable to the higher arrest rates for Blacks and Hispanics, circumstances that compel a search.

The "arrest rate" is the fourth summary indicator included in Table 1 that may be useful for assessing racial profiling. Just over 5 percent of all traffic stops resulted in an arrest (76,567/1,389,947). The probability of arrest varies across the race and ethnic groups.

Approximately 9 percent of the stops of African Americans and Hispanics resulted in arrest, compared with about 5 percent of the stops of whites. African Americans and Hispanics are stopped and searched more often than whites, but they are arrested more often as well.

A final addition to this year's report is a comparison of the 2000 disparity index to the disparity index for 2001. These comparisons are presented in Appendix B (PDF file. You need Acrobat Reader to view it. 1,251K).[2] For each agency, the disparity index for each race-ethnic group is presented for the year 2000 and 2001. These comparisons will allow an assessment of the changes from one year to the next.

However, caution should be used in making such comparisons, especially for smaller agencies, because the 2000 figures are based on only four months of traffic data, while those for 2001 are based on the full calendar year.

A reasoned determination of the existence of racial profiling in a community requires a comprehensive evaluation of the full range of information compiled in the agency reports. This brief summary of selected indicators for the state as a whole is intended to stimulate those local evaluations and dialogue.

Table 2. Agencies that did not submit reports as required by state law

*Denotes agencies that submitted reports, but after the deadline (Section 590.650, RSMo)

Altenburg Police Department	*Augusta Police Department	Bellefontaine Neighbors Police Department

III. ANALYSIS BY ATTORNEY GENERAL JAY NIXON

The response to the 2001 traffic data report provides the first opportunity for a full-year analysis of traffic stops in Missouri. Missouri law (Section 590.650, RSMo (2000)) was not enacted until Aug. 28, 2000; thus, the first annual report released June 1, 2001, covers only four months of traffic data.

As noted in Section II: Statewide Findings, the data collected for 2001 clearly shows a disproportionate number of stops of African Americans as well as a disproportionate number of searches of African Americans and Hispanics. The level of disproportion remains significant and it is of concern to me.

Disproportion in and of itself is not necessarily reflective of racial profiling. However, I remain concerned that the inappropriate use of race contributes to this level of disproportion between the stops of African Americans as compared to whites and to the disproportion of the searches of African Americans and Hispanics as compared to whites. The anecdotal information provided by many Missourians of color who perceive a racial profiling problem reinforces my concern.

My office continues to work with statisticians and with law enforcement to collect data that will provide the most accurate analysis possible. Even so, it is appropriate to note that the further away we move from the 2000 census year, the more difficult it will be to accurately analyze our data as populations shift. Breakdowns by race will become less accurate with each passing year.

The analysis I provide is based solely on the statewide statistical breakdown and is not a reflection on any particular jurisdiction. I fully recognize the variety of considerations that will affect local data including the appropriate increased patrol of high crime areas and the presence of interstate highways, large shopping centers or major employers in an area. These factors affect the demographics of the driving population, as opposed to the residential population.

Missouri's data collection and review of traffic stops does provide an opportunity to open dialog between local law enforcement and the communities they serve. Last year, some Missouri communities used the announcement of these statistics as an opportunity to meet with local minority communities and review the data collected as well as local community policing efforts. In addition, law enforcement has an opportunity to use this data internally to review the departmental performance and to aid in evaluation efforts.

Last year, the Missouri legislature added a new component to the state's laws against racial profiling, requiring additional training of law enforcement concerning the prohibition against racial profiling and promoting the use of effective, non-combative methods for carrying out law enforcement duties in a racially and culturally diverse environment. This is a move in the right direction. In addition, the law already requires every department to have a written policy against racial profiling.

I encourage all Missourians to respect the work of our law enforcement officials. In 2001, the Sept. 11 tragedies demonstrated as never before the danger and risk our law enforcement officers face every day as they place themselves in harm's way for our protection. The overwhelming majority of peace officers work hard every day for little pay to carry out their duties with dignity and respect for the rights of all. In responding to this law, most have worked diligently to collect this data with no extra funding or personnel.

Missouri's 2001 report is among the most comprehensive documentation of statewide traffic stops by race ever produced in this country. Missouri leads the way nationally on efforts to record and analyze traffic stops by race and to implement policies prohibiting the inappropriate

use of race in police work. The report of a full year of data is an opportunity for all communities to move forward in our race relations, and it is in particular an opportunity for law enforcement in Missouri to work toward efforts to build trust in all communities in our state.

All law-abiding citizens have the right to travel on any and every public thoroughfare in this state. We must continue our efforts to ensure that right as a matter of equal justice under the law.

[back to top]

FOOTNOTES

Footnote 1: The figures for whites, Blacks, Asians, and American Indians in Table 4 represent the number of non-Hispanic persons 16 and older who designated that race alone in the 2000 Census. Hispanics may be of any race. About 1 percent of the population designated two or more races. These persons are included in the "Other" category along with persons of unknown race.

Footnote 2: The figures for 2000 reported in Appendix B have been recalculated using the population age 16 and older to allow direct comparisons with those for 2001.

Part 1: Adair County-LaPlata. Part 2: Lathrop-Wright County.

Accuracy verification statement for agency reports

The Attorney General's Office made extensive efforts to verify and correct all forms where numbers appeared incomplete or inaccurate. Following the March 1 deadline, calls were made to a number of agencies regarding incomplete or inaccurate data. To the extent that corrections could be determined, they were incorporated into the report.

In addition, all agencies were given the opportunity to review their final reports before publication and to make comments. At that point, corrections again were made for agencies and their comments have been included on individual city data sheets under the heading "Agency response."

RACIAL PROFILING DATA/2001

Agency: Adair County Sheriff's Dept.

Population: 20,756
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	178	166	6	5			1
Searches	29	28	0	1			0
Arrests	8	9	0	1			0
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	95.14	1.22	1.13			0.72
Disparity index	N/A	0.98	2.77	2.48			0.78
Search rate	16.29	16.87	0.00	20.00			0.00
Contraband hit rate	62.07	25.00	#Error	100.00			#Error
Arrest rate	4.49	5.42	0.00	20.00			0.00

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

The city of Arnold is located along a major north/south interstate highway. Additionally, a major secondary north/south U.S. highway is present. Heavy traffic and construction volume is present. Since I-55 and U.S. 61-67 are major north/south roadways to Tennessee, Louisiana and Arkansas, many non-Caucasian travelers use this roadway.

Agency response

We have three major employers of Hispanics in Audrain County. As a result, we have had many Hispanics moving into our community in the past couple of years. The Mexico Area Chamber of Commerce estimates that approximately 200 Hispanics live in Mexico, Mo. (population 11,330). That figure calculates to a local population percentage rate of 1.77, a greater number than the percentage of stops for my office during 2001. The Racial Profiling Report also fails to calculate the number of traffic stops that an officer makes after sundown and even during daylight hours when the vehicles that are stopped have tinted windows. Both instances make it virtually impossible for the officer to identify the race, sex and age of the driver prior to the traffic stop.

RACIAL PROFILING DATA/2001

Agency: Aurora Police Dept.

Population: 5,292
age 16 and over

Agency response

I'd like to continue my objection to the method used to calculate the disparity index based only on our city's Afro-American population, which is 1.98%, or 123 individuals. This method creates a characterization by way of inference that my department is discriminating, and that is totally untrue. The percentage of Afro Americans stopped was 12.1% of the total number of individuals stopped, and this percentage in our opinion is well under the percentage of black citizens who shop, work and travel through our city. The city of Brentwood is located three miles west of the city of St. Louis and two miles south of Clayton, the county seat. The city's static population is approximately 7,693; however, it swells to approximately 35,000 during the daytime, due to 780 business establishments, three large shopping centers and two industrial parks. The city is also the major crossroads between the county seat and the city of St. Louis. Major highways and county arterial roads in the city are some of the most heavily traveled commuter routes in the metropolitan area. We strongly believe that all the facts and circumstances must be taken into account before any conclusions or inferences can be drawn from the racial profiling report. Also, I'd like to encourage your office to work towards a better and more accurate method of measuring racial profiling. The present method sends the wrong information to our black citizens and harms the relationship between them and law enforcement.

Agency response

Bridgeton has an extremely diverse business community with many large corporate employers, retail businesses and entertainment centers. We also are located alongside an international airport, with two major interstate highways and two heavily traveled state highways. I feel that these factors account for the high disparity index.

RACIAL PROFILING DATA/2001

Agency: Brookfield Police Dept.

Population: 3,776
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	1433	1397	27	6	2		1
Searches	50	48	0	2	0		0

RACIAL PROFILING DATA/2001

Agency: Bunker Police Dept.

Population: 322
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	49	49					
Searches	0	0					
Arrests	0	0					
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	93.48					
Disparity index	N/A	1.07					
Search rate	0.00	0.00					
Contraband hit rate	#Error	#Error					
Arrest rate	0.00	0.00					

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Cape Girardeau is located on the Mississippi River midway between St. Louis and Memphis. Interstate 55, which connects these two cities, runs through Cape Girardeau. Due to its geographic location and size, Cape Girardeau serves as a regional hub for shopping, education (Southeast Missouri State University), medical and business activities. As a result, it is estimated that Cape Girardeau's daytime population increases to as many as 100,000 people, many of whom are driving vehicles. Thus, it is our opinion that due to the city's increase in daytime population, the results of our traffic stop data become somewhat skewed when comparing it to our static population of 28,954 residents age 16 and over.

RACIAL PROFILING DATA/2001

Agency: Cardwell Police Dept.

Population: 622
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other

RACIAL PROFILING DATA/2001

Agency: Chaffee Police Dept.

Population: 2,363
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	1452	1443	9				
Searches	275	271	4				
Arrests	128	128	0				
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	97.93	0.08				
Disparity index	N/A	1.01	7.32				
Search rate	18.94	18.78	44.44				
Contraband hit rate	10.18	10.33	0.00				
Arrest rate	8.82	8.87	0.00				

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Highways and roadways within Clay County provide access to two casinos, two amusement parks, and one international airport that collectively draw on a regional, bi-state basis over 13 million non-resident drivers. Those demographics contribute to the overall picture of the racial profile data collected. As a caution, it is important to note that any evidence of racial or ethnic disparity is not necessarily definitive proof of race based profiling. Police decision-making is complicated, dynamic and reactive. In order to fully understand the results of decisions we must also understand the process by which the decisions are made. Unfortunately, this data set cannot document this process. It is safe to say that any disparity exists with respect to race and ethnicity within some of the routine enforcement practices of the Clay County Sheriff's Office. One cannot however determine from these results how much of this disparity, if any, is based on racial or ethnic prejudice.

Agency response

The village of Claycomo is surrounded by Kansas City on three sides. In addition, two interstate highways, I-35 and I-435, run through the village. The village of Claycomo is home to Ford Motor Co. Kansas City assembly plant, which employs over 5,000 workers, in addition to vendors and outside contractors who travel through the village on a daily basis. The racial makeup of our daily traffic count is not close in comparison with our population figures.

Agency response

The city of Clayton is the county seat for St. Louis County. It contains the courts, government offices, juvenile detention center and the St. Louis County Justice Center, which houses over 1,200 inmates. In addition, Clayton is the home of several major corporations and contains over 6.5 million square feet of office space and one million square feet of retail. It is estimated that over 80,000 people visit Clayton on a daily basis to work, shop, or do business. Most of those visiting Clayton reside in the St. Louis metropolitan area. Additionally, a number of major thoroughfares run through Clayton carrying commuters from various parts of the county requiring a significant amount of traffic enforcement: I-170, Forest Park Parkway, Hanley Road, Clayton Road, Brentwood Boulevard and Forsyth Boulevard. Therefore, it is felt that, for the purposes of this study, the racial makeup of the population should be in direct proportion to that of the St. Louis metropolitan area. At the very least, the racial breakdown should be in line with that of St. Louis County as a whole, rather than the resident population of Clayton.

Agency response

Clinton is located on the primary roadway carrying traffic from the large metropolitan areas of Kansas City and Springfield. In addition, Clinton receives a large influx of tourists due to its proximity to Truman Lake. Together, these factors result in a large transient population which may provide a different base population level than that listed. Additionally, some of these figures are so small that their statistical significance would be questionable.

Arrests	957	537	393	15	7	1	4
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	82.73	9.32	1.88	4.26	0.37	1.45
Disparity index	N/A	0.91	2.28	0.60	0.39	0.15	0.53
Search rate	10.97	8.54	19.89	16.88	6.33	25.00	2.75
Contraband hit rate	17.40	20.59	10.93	11.11	20.00	0.00	33.33
Arrest rate	6.69	5.00	12.94	9.38	2.95	12.50	3.67

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

The city of Cottleville has approximately 2,000 residents. The demographics of the driving population are impacted by the close proximity of I-70 and I-64, which are heavily traveled and provide a transit population traveling through the community daily. The city is also within a five-mile radius to the only large shopping mall in the county and is seated between two of the most rapid growth cities in the county. Cottleville is host to St. Charles Community College, with approximately 6,600 students, all impacting the driving demographics used from a population census.

Agency response

The city of Creve Coeur is a "crossroads" in the St. Louis metropolitan area, having five major roadways (interstate and state designated highways) passing through or immediately adjacent to the city. Creve Coeur is home to numerous employers and businesses, as well as one of the largest medical service communities in the region. Drivers of all races regularly visit and/or work in Creve Coeur, resulting in a greater representation of minorities than that reflected by the city's population and, ultimately, a higher disparity index. Creve Coeur is ranked in the top 20 communities in Missouri regarding traffic collisions. To that end, the Creve Coeur Police Department executes an aggressive traffic safety program. The Creve Coeur Police Department neither practices or condones racial profiling.

RACIAL PROFILING DATA/2001

Agency: Delta Police Dept.

Population: 402
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	109	107	2				
Searches	17	16	1				
Arrests	3	6	0				
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	98.76	0.00				
Disparity index	N/A	0.99	#Error				
Search rate	15.60	14.95	50.00				
Contraband hit rate	11.76	12.50	0.00				
Arrest rate	2.75	5.61	0.00				

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

When the law was written, it clearly indicated that the results for each area would be based on both the population of the community and those that travel through the community. It did not indicate the reduction in population of those below the driving age. However, the state has yet to make known the amount of traffic that travels through any given area, has offered no solutions on how they arrive at a travel figure, and has provided no funds to assist in determining those that travel through. Sitting patrol cars on an interstate trying to count race and gender of drivers are not an acceptable answer to any department. In Edmundson, we have sections of I-70 and Highway 115, the main entrance to St. Louis International Airport (Lambert) and two county-maintained roads, yet our figures are based only on population. If the state was to give credit to the reporting agencies for all the stops on the above mentioned roads as population that travels through, combined with the new requirement of "resident — yes/no," I feel a more accurate and fair disparity figure can be obtained.

Agency response

The city of Festus has a major interstate highway (I-55) that runs through the middle of our city. This interstate, which runs from Louisiana all the way up to Chicago, brings several thousand people into our area each day. Our city also has a Super Wal-Mart store that is visited by several people that are out of the area. It is the only Wal-Mart of its size in our county. Our city also has a wide variety of restaurants that are patronized by people who are traveling all of our thoroughfares.

RACIAL PROFILING DATA/2001

Agency: Fisk Police Dept.

Population: 296
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	45	44		1			
Searches	9	9		0			
Arrests	2	2		0			
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	97.30		1.01			
Disparity index	N/A	1.00		2.19			
Search rate	20.00	20.45		0.00			
Contraband hit rate	11.11	11.11		#Error			
Arrest rate	4.44	4.55		0.00			

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Our review would indicate that as noted by your office some minor numerical differences do exist. In reviewing the disparity index we have noted that there is a slight increase over the previous year's report, which detailed four months of data. The disparity index is above a neutral position for blacks. We would like to note that there are three state highways and one interstate highway that pass through our city. Each of these provides the means for large numbers of non-resident drivers pass through Gladstone. In addition we also have a large home improvement retail center that is located on the southern edge of our city. This center is regularly visited by non-residents who arrive by one of two adjacent highways form the surrounding Kansas City, Missouri and Kansas City, Kansas areas. We believe the data being collected for the current year, which will reflect resident versus non-resident stops, will bring the disparity index for this category more closely in line with the demographics of our city.

Agency response

Glendale is located in the metropolitan St. Louis area. We have a tremendous number of vehicles containing an above average number of minorities pass through our city on a daily basis. Missouri Route 100, a highly traveled east/west thoroughfare, is located within our city limits. Berry Road and Lockwood Boulevard are major streets that carry traffic to and from I-44, which is just south of our city limits. We are neighbors with Rock Hill, Kirkwood and Webster Groves, which all have higher minority populations. Warson Village Shopping Center is at our northern boundary. Four major shopping centers (Galleria, Crestwood, West County and Frontenac Plaza) are within a short driving distance.

Agency response

We have a large transient population as we sit between Kansas City and Springfield, which are now connected by a four-lane highway. The majority of all stops are occurring on highways, which would most probably represent non-resident populations.

Population: 1,040
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	180	21	156		3		
Searches	25	2	23		0		
Arrests	25	2	23		0		
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	5.10	93.94		0.10		
Disparity index	N/A	2.29	0.92		17.33		
Search rate	13.89	9.52	14.74		0.00		
Contraband hit rate	0.00	0.00	0.00		#Error		
Arrest rate	13.89	9.52	14.74		0.00		

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Holts Summit is located on U.S. 54 between Jefferson City and Fulton. U.S. 54 is a main route to Jefferson City from I-70 and St. Louis. In no way can an analysis of this data identify a racial profiling problem. Therefore this data is only useful in tracking enforcement/violation trends in general and does nothing to identify any problem with a specific officer. This program is also a direct violation of Art. X of the Missouri Constitution and should be ended so that taxpayer money is no longer wasted.

Agency response

The Independence Police Department, an internationally accredited law enforcement agency, by policy and practice, does not tolerate any form of bias-based profiling. The racial makeup of our motoring public does not reflect the resident population, due to our proximity to Kansas City and other neighboring cities with significant minority populations. Other factors include major east/west thoroughfares entering Independence, including I-70, KCMO public schools in Independence, major retail shopping and entertainment centers where residents of neighboring cities feel safe, and a noticeable lack of IA complaints from drivers citing profiling as a basis for being stopped.

Agency response

In May 2001, this department began traffic enforcement of U.S. 71. This is the first time that the Jasper Police Department has actively enforced traffic laws on Highway 71 since it became a four-lane highway. This highway is heavily traveled by many diverse groups of people. The Jasper Popcorn plant is located on state highway H (Mercer St.) in our city. This plant employs people from much of the area around Jasper, including people from Lamar and Carthage. These two factors would explain why we have an over-representation in our disparity index for the Black, Hispanic and Asian races.

RACIAL PROFILING DATA/2001

Agency: Jefferson City Police Dept.

Population: 32,323
age 16 and over

Agency response

The report prepared by the Attorney General's Office may provide an incomplete picture of traffic stop activities by the Joplin Police Department and other Missouri law enforcement agencies, by comparing individual agency traffic stop data against local jurisdiction demographics collected in the 2000 census. For those agencies whose officers are likely to encounter a high proportion of non-residents traveling through their jurisdiction, demographics of the driving population could be significantly different from the demographics of the agency's resident population. A 1999 study for the City of Joplin indicated that 28% of the vehicles entering Joplin each day are registered outside the state of Missouri, and that more than 7 of every 8 vehicles entering Joplin each day are garaged outside the city of Joplin. The presence of large employment, retail, commercial and medical sites within Joplin results in a daily service population in excess of 225,000, five times greater than the resident population. Until valid data on the demographics of "the population of minority groups residing or traveling within the jurisdiction" is generated, comparisons of traffic stop data to local resident population demographics could easily lead to erroneous conclusions about law enforcement activities.

Agency response

Kansas City, Mo., has many major thoroughfares that cut through the city, including I-29, I-35 and I-70. Therefore, caution should be taken when using the census population data as the sole benchmark. The census population is not fully representative of the commuter/transient population in Kansas City at any given time. Additionally, when examining the search rates, the probable cause/authority to search reasons should be taken into consideration. Closer examinations of these reasons can help distinguish between high and low discretion searches.

RACIAL PROFILING DATA/2001

Agency: Kearney Police Dept.

Population: 3,804
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	1252	1227	10	12	1		2
Searches	116	114	1	1	0		0

Agency response

Ladue and its Police Department are dedicated to the equal and non-discriminatory enforcement of the law. The statistical analysis contained in this report is an improper basis for its calculations because it only uses the racial makeup of the population of Ladue and ignores the proper benchmark, the racial makeup of the motoring public driving in and through Ladue. Ladue has four major thoroughfares — I-64, I-170, Clayton Road and Ladue Road — that carry over 300,000 vehicles a day through the city. Most police encounters with motorists result from investigating accidents and enforcing traffic laws on these major roadways. A racial population analysis has not been performed of the drivers on these roads. Common sense indicates that this ratio would be more reflective of the racial composition of St. Louis County which shows an African-American population of 19% compared to Ladue's 0.87%. If a proper basis for the study's analysis were to be used, it would be obvious that our department is fulfilling its mission of equal and non-discriminatory enforcement of the law.

Agency response

Lafayette County is divided north and south by I-70 for approximately 36 miles. Most of our traffic enforcement occurs in the evening and overnight hours. The east-bound and west-bound lanes are separated by approximately 40 feet. The average closure speeds are in excess of 140 miles per hour for speeding violators. Lafayette County has a high Hispanic population due to the apple industry.

Agency response

The City of Lake Lotawana is located in Jackson County, which has a population in excess of 660,000 residents. Missouri Route 7 intersects through the city limits of Lake Lotawana between U.S. Hwy. 50 and I-70. Thousands of vehicles use this corridor per day. Subjects cited for traffic violations are usually clocked on radar and at the time of the reading the ethnicity of the violator is not usually known. During night patrol, officers rarely know the ethnicity of the operator. Currently, the city has no Black residents, one Hispanic and no Asians, making the Disparity Index figures inaccurate for this city.

RACIAL PROFILING DATA/2001

Agency: Lake Ozark Police Dept.

Agency response

One critical consideration in the analysis of the data submitted by the city of Lake Saint Louis is the fact that Interstate 70 borders the venue on the north and U.S. Highway 40/61 passes through the city near the southern border. For example, it should be noted that 65.6% of all stops conducted with black drivers occurred either on the interstate or on a U.S. highway. As a standard of comparison, 56% of all stops occurred on those highways and 54.9% of traffic stops conducted with white drivers occurred there. The percentage of highway stops for drivers in other racial and ethnic categories ranged from 54.7% to 58.5%. While the city has a relatively low minority population, that is not necessarily the case for the population traveling these highways.

RACIAL PROFILING DATA/2001

Agency: Linn County Sheriff's Dept.

Population: 10,746
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	81	77	1	3			
Searches	5	5	0	0			
Arrests	6	5	0	1			
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	97.78	0.57	0.64			
Disparity index	N/A	0.97	2.17	5.77			
Search rate	6.17	6.49	0.00	0.00			
Contraband hit rate	20.00	20.00	#Error	#Error			
Arrest rate	7.41	6.49	0.00	33.33			

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

I will reiterate in part our response from last year that any disparity in numbers are attributable in large measure to state highways running through our community, i.e., highways 141 and 100. In fact, the data indicate that just under 50% of all traffic stops were on the state highways. Black motorists made up 58% of all traffic stops on state highways. Incidentally, with the completion of 141 running through Manchester, the number of vehicles traveling the highway may be approximately 150,000, up from 50,000 from last year. Only four of 187 black motorists cited, or 2%, were residents of the city of Manchester.

Agency response

The 20,840 population used in this report does not reflect the true demographics of the city of Maryland Heights. Maryland Heights has 1,813 businesses, which employ 52,233 people. The city contains Harrah's Casino, which had six million visitors in 2001. The 20,000-seat Riverport Amphitheater had 398,000 visitors in 2001. The city has 20 hotels with 3,249 rooms. Maryland Heights has 61 liquor establishments selling alcohol by the drink. Finally, the section of I-270 in Maryland Heights has an average daily traffic count of 178,000 vehicles, the third highest in the state. The demographics of the 6,497,000 vehicles on I-270, the six million visitors to the casino, 398,000 visitors to Riverport and the 52,233 people employed in Maryland Heights are not known but surely impact this report.

Agency response

This department still maintains that the system whereby arrests, stops and searches are compared to the permanent population is fundamentally flawed. We experience a significant number of transient individuals who have no permanent residence in Mexico or live in other areas who are involved in incidents here. We understand that some steps have been taken to correct these inaccuracies in the future, but we note that these corrections are not reflected in this year’s figures.

Agency response

We have a state penitentiary that opened in our county in October 2001. Interstate 57 runs the full length of our county connecting major cities such as Chicago to Tulsa and Chicago to Memphis.

Agency response

Two major highways, U.S. 54 and U.S. 71, travel through Nevada. Nevada has 3M, a major employer in southwest Missouri. Both the major highways and 3M affect the demographics of the driving population in Nevada.

Agency response

Due to the Isle of Capri casino opening in December 2001, we have had a moderate to sometimes heavy increase in traffic traveling through New Franklin to Boonville.

Agency response

It is significant that our community is located adjacent to an interstate highway with a major shopping mall, and that over half of the nonwhite stops occurred on a state highway. It is obvious that a total of three nonwhite searches (two resulting incident to arrest) cannot be statistically or otherwise significant of any factors regarding racial profiling.

Agency response

The city of Olivette has two major highways within its boundaries: I-170 is on the east and Highway 340 (Olive Blvd.) is a pipeline connecting thousands of people traveling into and through Olivette for business and pleasure. Olivette has several employers that employ hundreds of people. Over 53,000 vehicles utilize Olive Blvd. each day. Traffic enforcement along with vehicle accident investigations and other highway incidents is a majority of the police department duties. The Olivette Police Department is committed to making the streets within our boundaries as safe as possible for all people living, visiting, working or traveling through our city.

RACIAL PROFILING DATA/2001

Agency: Olympian Village Police Dept.

Population: 496
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other

Agency response

There are two state highways that traverse most of the city. These highways link Parkville to Kansas City, Missouri and Kansas City, Kansas. The minority population of these cities are significantly greater than either the minority population of Parkville or the state average. Parkville also has a university with a large minority enrollment, most of whom are not residents, as well as several roofing and landscaping businesses that employ a large number of minorities.

Agency response

Platte City is intersected by Mo. Highway 92, which is a major transportation link for the Kansas City metropolitan area. This highway carries over 10,000 cars per day through Platte City. I-29 has two exits into Platte City. We have several large convenience stores, gas stations and fast food restaurants that bring traffic into our city from I-29. This transient traffic through Platte City will have an impact on the above data.

Agency response

The city of Richmond Heights is a 2.8 sq. mile city located on the western boundary of the city of St. Louis. I-64 (Hwy. 40) runs directly through the city, with I-170 running north from I-64. Located in the city is the Galleria shopping mall, which generates approximately 10 million visitors annually. Richmond Heights has numerous office buildings, including the 23-story University Club Towers. Richmond Heights also borders Clayton, the county seat for St. Louis County. Thousands of vehicles travel through Richmond Heights on a daily basis due to its geographic location. The RHPD was concerned about the disparate rates of searches for blacks vs. whites. An initial review of the numbers shows that 24.87% of all black motorists stopped were searched, compared to only 5.16% of the white motorists stopped. Upon further review, we found a disparate rate of outstanding warrants. (When an officer finds an outstanding warrant, the officer is required to affect an arrest and thus search the motorist as a matter of standard police policy.) It was found that 7.64% of all black motorists stopped had an outstanding warrant, accounting for 30.7% (71 of 231) of all searches of black motorists. For white motorists stopped, less than 1% (.85) had an outstanding warrant, accounting for 16.5% (15 of 91) of all searches of white motorists.

Agency response

The Shrewsbury Police Department is committed to the fair treatment of all citizens and visitors of our community. We support the Missouri Attorney General's efforts to better understand traffic enforcement activity and patterns. However, since the data in the Attorney General's report is descriptive in nature and not interpretive, further analysis of traffic stops, arrests and searches is needed so that more meaningful interpretations of the data can be made. Race-neutral explanations need to be considered and ruled out before any possible conclusions relating to disparate treatment can be drawn. Furthermore, we believe it would be more prudent to examine traffic enforcement activity in terms of the population that travels upon a community's roadways rather than its resident population. This would allow the data to then be examined in a much more appropriate context that would take into account the diversity of the surrounding region and the uniqueness of the motoring population of each individual community.

RACIAL PROFILING DATA/2001

Agency: St. Charles County Sheriff's

Population: 210,522
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	9345	8476	567	85	47	35	30
Searches	986	853	92	25	3	3	1
Arrests	552	490	43	9	0	3	0
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	94.43	2.47	1.29	0.88	0.22	0.71
Disparity index	N/A	0.96	2.46	0.70	0.57	1.72	0.45
Search rate	10.55	10.06	16.23	29.41	6.38	8.57	3.33
Contraband hit rate	23.23	24.03	19.57	4.00	0.00	33.33	100.00
Arrest rate	5.91	5.78	7.58	10.59	0.00	8.57	0.00

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

There are unique circumstance that affect the demographics of Saint Charles City. There are two major interstate highways, I-70 and I-370, providing access from east and west. There is a major state highway, Mo. Route 94, providing access north and south through Saint Charles. The Ameristar Casino employs many individuals and has customers from the greater St. Louis metropolitan area. Criminal activity in Saint Charles City is to some degree attributable to persons who reside outside the city and who live in the greater St. Louis metropolitan area. Saint Charles City has several major shopping centers, including Bass Pro, Sam's, Wal-Mart, Lowe's, Home Depot and Target. Since the last census, there has been an influx of legal and illegal aliens into Saint Charles City.

Agency response

The percent of total persons stopped by police during 2001 (white-47.2%; black-49.4%) was fairly proportional to the number of such persons aged 16 and over residing in the City of St. Louis (white-47.6%; black-46.6%). While the reports reflect that only 6.8% of the persons stopped were searched, a disproportionate number of the persons searched were black (80.0%) as compared to whites (18.2%). One of the primary reasons for this difference is the department requirement for a search incidental to lawful arrests of persons searched. Because of this requirement, some 83% were black, as compared to 15.7% who were white. One of the major reasons for arrest was the existence of outstanding warrants (white-121; black-852). Also, the number of blacks consenting to a search (923) was greater than the number of whites (243). The rates in the 2001 report remain consistent with the rates in the 2000 report.

Agency response

While the data compiled in this report is informative, any conclusions drawn from the data must be tempered with common sense. For example, population data used to calculate the disparity index does not include members of the minority community that reside in the city of St. Louis and therefore, increases the diversity of drivers on the roads within St. Louis County. Nor does the data reflect that in a majority of traffic stops, police officers do not know the race of the driver prior to initiating the traffic stop. The St. Louis County Police Department has a long standing policy prohibiting all investigative detentions, traffic stops, arrests, searches or seizures of property based solely on race, ethnicity, gender, sexual orientation, religious belief, disability or economic level. All commissioned officers have participated in cultural diversity and sensitivity training and specialized training which prohibits the illegal practice of racial profiling. The St. Louis County Police Department will continue to gather and monitor the data required in this report to ensure our officers continue to respect the rights of every individual.

Agency response

The city of St. Robert is the business hub of Pulaski County and shares a common boundary with Fort Leonard Wood. Although the 2000 census data indicates a population of under 3,000 persons, it is estimated that the daytime and transient population generated by Fort Leonard Wood approaches 30,000 people.

Agency response

We have a major highway running through Sugar Creek and we have received three grants to work traffic on this highway. Those efforts have included DWI, speed, careless and reckless driving, and seatbelt enforcement. The racial makeup of the traffic on this highway is in no way reflective of the population of Sugar Creek. The Sugar Creek Police Department does not in any way participate in or endorse any type of discrimination based on race, gender or any other prohibited factor.

Agency response

Three major highways, two federal and one state, crisscross Town and Country and carry an estimated 400,000 plus vehicles through our community daily. The intersection of I-64 and I-270, located within the city, is reported to be the second or third busiest intersection in the state. Analysis shows that the overwhelming majority of the department's traffic enforcement occurs on the three referenced major highway systems, and that the city's residential population is in the minority in comparison to others traveling through, visiting, worshiping or working within its boundaries. It can be reasonably concluded that the racial makeup of those utilizing these highways is more proportionate to a combination of state, county and St. Louis City population and associated ratios than to the city of Town and Country proper. Therefore, it is our belief that the city's traffic enforcement activities are in harmony with both the provisions and intent of the state's Racial Profiling Law requiring that vehicle stops be proportionate to the population groups residing or traveling within its jurisdiction.

Agency response

The campus of North Central Missouri College is located within the city limits of Trenton. The population of the college is not included in the census. This contributes to the 3.57 disparity index for the 12 stops of black motorists. U.S. Highway and state route 6 intersect in Trenton. The city of Milan, 25 miles to the east, has a large percent of Hispanic population. There is a large number of Hispanics who travel through Trenton to and from Milan.

RACIAL PROFILING DATA/2001

Agency: Troy Police Dept.

Population: 4,924
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other

Agency response

Urich has as part of its city limits a four-lane highway. A great deal of traffic uses Highway K as a cut through to the four-lane road from the south. I believe that the number of minority stops reflects a transient population. I would also question the reliability and accuracy of the percentages because of the low number of stops of Black drivers.

Contraband hit rate	31.82	31.82	#Error	#Error		#Error	
Arrest rate	4.65	4.54	0.00	0.00		100.00	

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

The city of Webster Groves is part of a major metropolitan area whose population travels daily upon our streets. A major interstate highway and several north/south feeder streets are included in our traffic network and are heavily traveled by non-residents in their commute to work and business. In addition, Webster Groves has several shopping and recreational areas that are heavily patronized by a large number of non-residents. This transient population is well documented in that over 80% of traffic citations are issued to non-residents. Consequently, any statistical model wherein the resident population of the city of Webster Groves is solely used for analysis is seriously flawed.

Agency response

The following is offered as additional information to further clarify and help put the data in fuller context. Located within the city limits are six major chain hotels and two major chain car rental agencies who employ Blacks as a large percentage of their work force. Woodson Terrace is bordered to the east by the city of Berkeley, whose major population is black. Located within the city limits are two Mexican restaurants, two Mexican groceries, one Hispanic currency exchange, and an insurance brokerage firm whose primary clients and work force are Hispanic. I-70 and state highway 115 travel east and west through the city and state highway EE travels north and south, with these major routes connecting Woodson Terrace to the surrounding and outlying area. The northern city limits adjoin Lambert St. Louis International Airport, which attracts a diverse segment of the population (including Black and Hispanic) with access via I-70 and state highway 115.

RACIAL PROFILING DATA/2001

Agency: Worth County Sheriff's Dept.

Population: 1,898
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	42	42					
Searches	5	5					
Arrests	1	1					
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	99.00					
Disparity index	N/A	1.01					
Search rate	11.90	11.90					
Contraband hit rate	40.00	40.00					
Arrest rate	2.38	2.38					

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Notes: Proportion of stops by racial category/proportion of statewide population of that racial category. A value of 1 indicates local stops within a racial category equivalent to that racial groups proportion in the state population. A value less than 1.0 indicates a lower proportion of stops of that racial group lower than its proportion in the state population. A value greater than 1.0 indicates a higher proportion of that racial group than its proportion of the statewide population.

#Error indicates zero in denominator.

Appendix B: Disparity indexes for 2001 and 2000 are compared

RACIAL PROFILING DATA/2001

Agency: Andrew County Sheriff's Dept.

Population: 12,667
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	534	526	4	3	1		
Searches	26	26	0	0	0		
Arrests	12	11	0	0	0		
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	98.11	0.36	0.69	0.23		
Disparity index	N/A	1.00	2.11	0.81	0.82		
Search rate	4.87	4.94	0.00	0.00	0.00		
Contraband hit rate	15.38	15.38	#Error	#Error	#Error		
Arrest rate	2.25	2.09	0.00	0.00	0.00		

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

The city of Arnold is located along a major north/south interstate highway. Additionally, a major secondary north/south U.S. highway is present. Heavy traffic and construction volume is present. Since I-55 and U.S. 61-67 are major north/south roadways to Tennessee, Louisiana and Arkansas, many non-Caucasian travelers use this roadway.

RACIAL PROFILING DATA/2001

Agency response

We have three major employers of Hispanics in Audrain County. As a result, we have had many Hispanics moving into our community in the past couple of years. The Mexico Area Chamber of Commerce estimates that approximately 200 Hispanics live in Mexico, Mo. (population 11,330). That figure calculates to a local population percentage rate of 1.77, a greater number than the percentage of stops for my office during 2001. The Racial Profiling Report also fails to calculate the number of traffic stops that an officer makes after sundown and even during daylight hours when the vehicles that are stopped have tinted windows. Both instances make it virtually impossible for the officer to identify the race, sex and age of the driver prior to the traffic stop.

Agency response

I'd like to continue my objection to the method used to calculate the disparity index based only on our city's Afro-American population, which is 1.98%, or 123 individuals. This method creates a characterization by way of inference that my department is discriminating, and that is totally untrue. The percentage of Afro Americans stopped was 12.1% of the total number of individuals stopped, and this percentage in our opinion is well under the percentage of black citizens who shop, work and travel through our city. The city of Brentwood is located three miles west of the city of St. Louis and two miles south of Clayton, the county seat. The city's static population is approximately 7,693; however, it swells to approximately 35,000 during the daytime, due to 780 business establishments, three large shopping centers and two industrial parks. The city is also the major crossroads between the county seat and the city of St. Louis. Major highways and county arterial roads in the city are some of the most heavily traveled commuter routes in the metropolitan area. We strongly believe that all the facts and circumstances must be taken into account before any conclusions or inferences can be drawn from the racial profiling report. Also, I'd like to encourage your office to work towards a better and more accurate method of measuring racial profiling. The present method sends the wrong information to our black citizens and harms the relationship between them and law enforcement.

Agency response

Bridgeton has an extremely diverse business community with many large corporate employers, retail businesses and entertainment centers. We also are located alongside an international airport, with two major interstate highways and two heavily traveled state highways. I feel that these factors account for the high disparity index.

RACIAL PROFILING DATA/2001

Agency: Butler County Sheriff's Dept.

Population: 32,162
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	298	273	13	5			
Searches	71	68	3	0			
Arrests	20	19	1	0			
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	92.72	4.41	0.83			
Disparity index	N/A	0.99	0.99	2.03			
Search rate	23.83	24.91	23.08	0.00			
Contraband hit rate	12.68	13.24	0.00	#Error			
Arrest rate	6.71	6.96	7.69	0.00			

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Cape Girardeau is located on the Mississippi River midway between St. Louis and Memphis. Interstate 55, which connects these two cities, runs through Cape Girardeau. Due to its geographic location and size, Cape Girardeau serves as a regional hub for shopping, education (Southeast Missouri State University), medical and business activities. As a result, it is estimated that Cape Girardeau's daytime population increases to as many as 100,000 people, many of whom are driving vehicles. Thus, it is our opinion that due to the city's increase in daytime population, the results of our traffic stop data become somewhat skewed when comparing it to our static population of 28,954 residents age 16 and over.

Agency response

Highways and roadways within Clay County provide access to two casinos, two amusement parks, and one international airport that collectively draw on a regional, bi-state basis over 13 million non-resident drivers. Those demographics contribute to the overall picture of the racial profile data collected. As a caution, it is important to note that any evidence of racial or ethnic disparity is not necessarily definitive proof of race based profiling. Police decision-making is complicated, dynamic and reactive. In order to fully understand the results of decisions we must also understand the process by which the decisions are made. Unfortunately, this data set cannot document this process. It is safe to say that any disparity exists with respect to race and ethnicity within some of the routine enforcement practices of the Clay County Sheriff's Office. One cannot however determine from these results how much of this disparity, if any, is based on racial or ethnic prejudice.

Agency response

The village of Claycomo is surrounded by Kansas City on three sides. In addition, two interstate highways, I-35 and I-435, run through the village. The village of Claycomo is home to Ford Motor Co. Kansas City assembly plant, which employs over 5,000 workers, in addition to vendors and outside contractors who travel through the village on a daily basis. The racial makeup of our daily traffic count is not close in comparison with our population figures.

Agency response

The city of Clayton is the county seat for St. Louis County. It contains the courts, government offices, juvenile detention center and the St. Louis County Justice Center, which houses over 1,200 inmates. In addition, Clayton is the home of several major corporations and contains over 6.5 million square feet of office space and one million square feet of retail. It is estimated that over 80,000 people visit Clayton on a daily basis to work, shop, or do business. Most of those visiting Clayton reside in the St. Louis metropolitan area. Additionally, a number of major thoroughfares run through Clayton carrying commuters from various parts of the county requiring a significant amount of traffic enforcement: I-170, Forest Park Parkway, Hanley Road, Clayton Road, Brentwood Boulevard and Forsyth Boulevard. Therefore, it is felt that, for the purposes of this study, the racial makeup of the population should be in direct proportion to that of the St. Louis metropolitan area. At the very least, the racial breakdown should be in line with that of St. Louis County as a whole, rather than the resident population of Clayton.

RACIAL PROFILING DATA/2001

Agency: Cleveland Police Dept.

Population: 444
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other

Agency response

Clinton is located on the primary roadway carrying traffic from the large metropolitan areas of Kansas City and Springfield. In addition, Clinton receives a large influx of tourists due to its proximity to Truman Lake. Together, these factors result in a large transient population which may provide a different base population level than that listed. Additionally, some of these figures are so small that their statistical significance would be questionable.

RACIAL PROFILING DATA/2001

Agency: Columbia Police Dept.

Population: 69,535
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	14300	10749	3037	160	237	8	109
Searches	1569	918	604	27	15	2	3
Arrests	957	537	393	15	7	1	4
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	82.73	9.32	1.88	4.26	0.37	1.45
Disparity index	N/A	0.91	2.28	0.60	0.39	0.15	0.53
Search rate	10.97	8.54	19.89	16.88	6.33	25.00	2.75
Contraband hit rate	17.40	20.59	10.93	11.11	20.00	0.00	33.33
Arrest rate	6.69	5.00	12.94	9.38	2.95	12.50	3.67

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

The city of Cottleville has approximately 2,000 residents. The demographics of the driving population are impacted by the close proximity of I-70 and I-64, which are heavily traveled and provide a transit population traveling through the community daily. The city is also within a five-mile radius to the only large shopping mall in the county and is seated between two of the most rapid growth cities in the county. Cottleville is host to St. Charles Community College, with approximately 6,600 students, all impacting the driving demographics used from a population census.

Agency response

The city of Creve Coeur is a "crossroads" in the St. Louis metropolitan area, having five major roadways (interstate and state designated highways) passing through or immediately adjacent to the city. Creve Coeur is home to numerous employers and businesses, as well as one of the largest medical service communities in the region. Drivers of all races regularly visit and/or work in Creve Coeur, resulting in a greater representation of minorities than that reflected by the city's population and, ultimately, a higher disparity index. Creve Coeur is ranked in the top 20 communities in Missouri regarding traffic collisions. To that end, the Creve Coeur Police Department executes an aggressive traffic safety program. The Creve Coeur Police Department neither practices or condones racial profiling.

Agency response

When the law was written, it clearly indicated that the results for each area would be based on both the population of the community and those that travel through the community. It did not indicate the reduction in population of those below the driving age. However, the state has yet to make known the amount of traffic that travels through any given area, has offered no solutions on how they arrive at a travel figure, and has provided no funds to assist in determining those that travel through. Sitting patrol cars on an interstate trying to count race and gender of drivers are not an acceptable answer to any department. In Edmundson, we have sections of I-70 and Highway 115, the main entrance to St. Louis International Airport (Lambert) and two county-maintained roads, yet our figures are based only on population. If the state was to give credit to the reporting agencies for all the stops on the above mentioned roads as population that travels through, combined with the new requirement of "resident — yes/no," I feel a more accurate and fair disparity figure can be obtained.

RACIAL PROFILING DATA/2001

Agency: El Dorado Springs Police Dept.

Population: 2,981
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other

Agency response

The city of Festus has a major interstate highway (I-55) that runs through the middle of our city. This interstate, which runs from Louisiana all the way up to Chicago, brings several thousand people into our area each day. Our city also has a Super Wal-Mart store that is visited by several people that are out of the area. It is the only Wal-Mart of its size in our county. Our city also has a wide variety of restaurants that are patronized by people who are traveling all of our thoroughfares.

RACIAL PROFILING DATA/2001

Agency: Fisk Police Dept.

Population: 296
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	45	44		1			
Searches	9	9		0			
Arrests	2	2		0			
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	97.30		1.01			
Disparity index	N/A	1.00		2.19			
Search rate	20.00	20.45		0.00			
Contraband hit rate	11.11	11.11		#Error			
Arrest rate	4.44	4.55		0.00			

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Our review would indicate that as noted by your office some minor numerical differences do exist. In reviewing the disparity index we have noted that there is a slight increase over the previous year's report, which detailed four months of data. The disparity index is above a neutral position for blacks. We would like to note that there are three state highways and one interstate highway that pass through our city. Each of these provides the means for large numbers of non-resident drivers pass through Gladstone. In addition we also have a large home improvement retail center that is located on the southern edge of our city. This center is regularly visited by non-residents who arrive by one of two adjacent highways form the surrounding Kansas City, Missouri and Kansas City, Kansas areas. We believe the data being collected for the current year, which will reflect resident versus non-resident stops, will bring the disparity index for this category more closely in line with the demographics of our city.

Agency response

Glendale is located in the metropolitan St. Louis area. We have a tremendous number of vehicles containing an above average number of minorities pass through our city on a daily basis. Missouri Route 100, a highly traveled east/west thoroughfare, is located within our city limits. Berry Road and Lockwood Boulevard are major streets that carry traffic to and from I-44, which is just south of our city limits. We are neighbors with Rock Hill, Kirkwood and Webster Groves, which all have higher minority populations. Warson Village Shopping Center is at our northern boundary. Four major shopping centers (Galleria, Crestwood, West County and Frontenac Plaza) are within a short driving distance.

RACIAL PROFILING DATA/2001

Agency: Golden City Police Dept.

Population: 671
age 16 and over

Agency response

We have a large transient population as we sit between Kansas City and Springfield, which are now connected by a four-lane highway. The majority of all stops are occurring on highways, which would most probably represent non-resident populations.

Agency response

Holts Summit is located on U.S. 54 between Jefferson City and Fulton. U.S. 54 is a main route to Jefferson City from I-70 and St. Louis. In no way can an analysis of this data identify a racial profiling problem. Therefore this data is only useful in tracking enforcement/violation trends in general and does nothing to identify any problem with a specific officer. This program is also a direct violation of Art. X of the Missouri Constitution and should be ended so that taxpayer money is no longer wasted.

Agency response

The Independence Police Department, an internationally accredited law enforcement agency, by policy and practice, does not tolerate any form of bias-based profiling. The racial makeup of our motoring public does not reflect the resident population, due to our proximity to Kansas City and other neighboring cities with significant minority populations. Other factors include major east/west thoroughfares entering Independence, including I-70, KCMO public schools in Independence, major retail shopping and entertainment centers where residents of neighboring cities feel safe, and a noticeable lack of IA complaints from drivers citing profiling as a basis for being stopped.

Agency response

In May 2001, this department began traffic enforcement of U.S. 71. This is the first time that the Jasper Police Department has actively enforced traffic laws on Highway 71 since it became a four-lane highway. This highway is heavily traveled by many diverse groups of people. The Jasper Popcorn plant is located on state highway H (Mercer St.) in our city. This plant employs people from much of the area around Jasper, including people from Lamar and Carthage. These two factors would explain why we have an over-representation in our disparity index for the Black, Hispanic and Asian races.

RACIAL PROFILING DATA/2001

Agency: Jefferson City Police Dept.

Population: 32,323
age 16 and over

Agency response

The report prepared by the Attorney General's Office may provide an incomplete picture of traffic stop activities by the Joplin Police Department and other Missouri law enforcement agencies, by comparing individual agency traffic stop data against local jurisdiction demographics collected in the 2000 census. For those agencies whose officers are likely to encounter a high proportion of non-residents traveling through their jurisdiction, demographics of the driving population could be significantly different from the demographics of the agency's resident population. A 1999 study for the City of Joplin indicated that 28% of the vehicles entering Joplin each day are registered outside the state of Missouri, and that more than 7 of every 8 vehicles entering Joplin each day are garaged outside the city of Joplin. The presence of large employment, retail, commercial and medical sites within Joplin results in a daily service population in excess of 225,000, five times greater than the resident population. Until valid data on the demographics of "the population of minority groups residing or traveling within the jurisdiction" is generated, comparisons of traffic stop data to local resident population demographics could easily lead to erroneous conclusions about law enforcement activities.

Agency response

Kansas City, Mo., has many major thoroughfares that cut through the city, including I-29, I-35 and I-70. Therefore, caution should be taken when using the census population data as the sole benchmark. The census population is not fully representative of the commuter/transient population in Kansas City at any given time. Additionally, when examining the search rates, the probable cause/authority to search reasons should be taken into consideration. Closer examinations of these reasons can help distinguish between high and low discretion searches.

Agency response

Ladue and its Police Department are dedicated to the equal and non-discriminatory enforcement of the law. The statistical analysis contained in this report is an improper basis for its calculations because it only uses the racial makeup of the population of Ladue and ignores the proper benchmark, the racial makeup of the motoring public driving in and through Ladue. Ladue has four major thoroughfares — I-64, I-170, Clayton Road and Ladue Road — that carry over 300,000 vehicles a day through the city. Most police encounters with motorists result from investigating accidents and enforcing traffic laws on these major roadways. A racial population analysis has not been performed of the drivers on these roads. Common sense indicates that this ratio would be more reflective of the racial composition of St. Louis County which shows an African-American population of 19% compared to Ladue's 0.87%. If a proper basis for the study's analysis were to be used, it would be obvious that our department is fulfilling its mission of equal and non-discriminatory enforcement of the law.

Agency response

Lafayette County is divided north and south by I-70 for approximately 36 miles. Most of our traffic enforcement occurs in the evening and overnight hours. The east-bound and west-bound lanes are separated by approximately 40 feet. The average closure speeds are in excess of 140 miles per hour for speeding violators. Lafayette County has a high Hispanic population due to the apple industry.

Agency response

The City of Lake Lotawana is located in Jackson County, which has a population in excess of 660,000 residents. Missouri Route 7 intersects through the city limits of Lake Lotawana between U.S. Hwy. 50 and I-70. Thousands of vehicles use this corridor per day. Subjects cited for traffic violations are usually clocked on radar and at the time of the reading the ethnicity of the violator is not usually known. During night patrol, officers rarely know the ethnicity of the operator. Currently, the city has no Black residents, one Hispanic and no Asians, making the Disparity Index figures inaccurate for this city.

RACIAL PROFILING DATA/2001

Agency: Lake Ozark Police Dept.

Agency response

One critical consideration in the analysis of the data submitted by the city of Lake Saint Louis is the fact that Interstate 70 borders the venue on the north and U.S. Highway 40/61 passes through the city near the southern border. For example, it should be noted that 65.6% of all stops conducted with black drivers occurred either on the interstate or on a U.S. highway. As a standard of comparison, 56% of all stops occurred on those highways and 54.9% of traffic stops conducted with white drivers occurred there. The percentage of highway stops for drivers in other racial and ethnic categories ranged from 54.7% to 58.5%. While the city has a relatively low minority population, that is not necessarily the case for the population traveling these highways.

RACIAL PROFILING DATA/2001

Agency: Linn County Sheriff's Dept.

Population: 10,746
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	81	77	1	3			
Searches	5	5	0	0			
Arrests	6	5	0	1			
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	97.78	0.57	0.64			
Disparity index	N/A	0.97	2.17	5.77			
Search rate	6.17	6.49	0.00	0.00			
Contraband hit rate	20.00	20.00	#Error	#Error			
Arrest rate	7.41	6.49	0.00	33.33			

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

I will reiterate in part our response from last year that any disparity in numbers are attributable in large measure to state highways running through our community, i.e., highways 141 and 100. In fact, the data indicate that just under 50% of all traffic stops were on the state highways. Black motorists made up 58% of all traffic stops on state highways. Incidentally, with the completion of 141 running through Manchester, the number of vehicles traveling the highway may be approximately 150,000, up from 50,000 from last year. Only four of 187 black motorists cited, or 2%, were residents of the city of Manchester.

Agency response

The 20,840 population used in this report does not reflect the true demographics of the city of Maryland Heights. Maryland Heights has 1,813 businesses, which employ 52,233 people. The city contains Harrah's Casino, which had six million visitors in 2001. The 20,000-seat Riverport Amphitheater had 398,000 visitors in 2001. The city has 20 hotels with 3,249 rooms. Maryland Heights has 61 liquor establishments selling alcohol by the drink. Finally, the section of I-270 in Maryland Heights has an average daily traffic count of 178,000 vehicles, the third highest in the state. The demographics of the 6,497,000 vehicles on I-270, the six million visitors to the casino, 398,000 visitors to Riverport and the 52,233 people employed in Maryland Heights are not known but surely impact this report.

RACIAL PROFILING DATA/2001

Agency: Maryville Dept. of Public Safety

Population: 9,307
age 16 and over

Agency response

This department still maintains that the system whereby arrests, stops and searches are compared to the permanent population is fundamentally flawed. We experience a significant number of transient individuals who have no permanent residence in Mexico or live in other areas who are involved in incidents here. We understand that some steps have been taken to correct these inaccuracies in the future, but we note that these corrections are not reflected in this year’s figures.

Agency response

We have a state penitentiary that opened in our county in October 2001. Interstate 57 runs the full length of our county connecting major cities such as Chicago to Tulsa and Chicago to Memphis.

RACIAL PROFILING DATA/2001

Agency: Missouri State Highway Patrol

Population: 4,331,937
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	327361	297977	19555	5713	2155	390	1571
Searches	11864	10088	1129	532	42	23	50
Arrests	10047	8755	906	311	19	24	32
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Disparity index	N/A	1.07	0.58	0.94	0.56	0.29	0.45
Search rate	3.62	3.39	5.77	9.31	1.95	5.90	3.18
Contraband hit rate	27.92	29.14	24.98	13.16	16.67	39.13	8.00
Arrest rate	3.07	2.94	4.63	5.44	0.88	6.15	2.04

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

Two major highways, U.S. 54 and U.S. 71, travel through Nevada. Nevada has 3M, a major employer in southwest Missouri. Both the major highways and 3M affect the demographics of the driving population in Nevada.

Agency response

Due to the Isle of Capri casino opening in December 2001, we have had a moderate to sometimes heavy increase in traffic traveling through New Franklin to Boonville.

Agency: North Kansas City Police Dept.

Population: 3,974
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	5219	3698	899	368	139	14	45
Searches	163	98	37	23	1	1	2
Arrests	335	202	77	49	3	1	3
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	81.15	3.85	7.27	3.88	0.45	3.40
Disparity index	N/A	0.87	4.47	0.97	0.69	0.59	0.25
Search rate	3.12	2.65	4.12	6.25	0.72	7.14	4.44
Contraband hit rate	19.02	18.37	18.92	21.74	0.00	0.00	0.00
Arrest rate	6.42	5.46	8.57	13.32	2.16	7.14	6.67

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

It is significant that our community is located adjacent to an interstate highway with a major shopping mall, and that over half of the nonwhite stops occurred on a state highway. It is obvious that a total of three nonwhite searches (two resulting incident to arrest) cannot be statistically or otherwise significant of any factors regarding racial profiling.

Agency response

The city of Olivette has two major highways within its boundaries: I-170 is on the east and Highway 340 (Olive Blvd.) is a pipeline connecting thousands of people traveling into and through Olivette for business and pleasure. Olivette has several employers that employ hundreds of people. Over 53,000 vehicles utilize Olive Blvd. each day. Traffic enforcement along with vehicle accident investigations and other highway incidents is a majority of the police department duties. The Olivette Police Department is committed to making the streets within our boundaries as safe as possible for all people living, visiting, working or traveling through our city.

Agency response

There are two state highways that traverse most of the city. These highways link Parkville to Kansas City, Missouri and Kansas City, Kansas. The minority population of these cities are significantly greater than either the minority population of Parkville or the state average. Parkville also has a university with a large minority enrollment, most of whom are not residents, as well as several roofing and landscaping businesses that employ a large number of minorities.

Agency response

Platte City is intersected by Mo. Highway 92, which is a major transportation link for the Kansas City metropolitan area. This highway carries over 10,000 cars per day through Platte City. I-29 has two exits into Platte City. We have several large convenience stores, gas stations and fast food restaurants that bring traffic into our city from I-29. This transient traffic through Platte City will have an impact on the above data.

Agency response

The city of Richmond Heights is a 2.8 sq. mile city located on the western boundary of the city of St. Louis. I-64 (Hwy. 40) runs directly through the city, with I-170 running north from I-64. Located in the city is the Galleria shopping mall, which generates approximately 10 million visitors annually. Richmond Heights has numerous office buildings, including the 23-story University Club Towers. Richmond Heights also borders Clayton, the county seat for St. Louis County. Thousands of vehicles travel through Richmond Heights on a daily basis due to its geographic location. The RHPD was concerned about the disparate rates of searches for blacks vs. whites. An initial review of the numbers shows that 24.87% of all black motorists stopped were searched, compared to only 5.16% of the white motorists stopped. Upon further review, we found a disparate rate of outstanding warrants. (When an officer finds an outstanding warrant, the officer is required to affect an arrest and thus search the motorist as a matter of standard police policy.) It was found that 7.64% of all black motorists stopped had an outstanding warrant, accounting for 30.7% (71 of 231) of all searches of black motorists. For white motorists stopped, less than 1% (.85) had an outstanding warrant, accounting for 16.5% (15 of 91) of all searches of white motorists.

RACIAL PROFILING DATA/2001

Agency: Schuyler County Sheriff's Dept.

Population: 3,275
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	84	79	1	2		1	1
Searches	25	25	0	0		0	0
Arrests	6	6	0	0		0	0
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	98.08	0.06	0.64		0.37	0.70
Disparity index	N/A	0.96	19.49	3.71		3.25	1.70
Search rate	29.76	31.65	0.00	0.00		0.00	0.00
Contraband hit rate	52.00	52.00	#Error	#Error		#Error	#Error
Arrest rate	7.14	7.59	0.00	0.00		0.00	0.00

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

The Shrewsbury Police Department is committed to the fair treatment of all citizens and visitors of our community. We support the Missouri Attorney General's efforts to better understand traffic enforcement activity and patterns. However, since the data in the Attorney General's report is descriptive in nature and not interpretive, further analysis of traffic stops, arrests and searches is needed so that more meaningful interpretations of the data can be made. Race-neutral explanations need to be considered and ruled out before any possible conclusions relating to disparate treatment can be drawn. Furthermore, we believe it would be more prudent to examine traffic enforcement activity in terms of the population that travels upon a community's roadways rather than its resident population. This would allow the data to then be examined in a much more appropriate context that would take into account the diversity of the surrounding region and the uniqueness of the motoring population of each individual community.

Agency response

There are unique circumstance that affect the demographics of Saint Charles City. There are two major interstate highways, I-70 and I-370, providing access from east and west. There is a major state highway, Mo. Route 94, providing access north and south through Saint Charles. The Ameristar Casino employs many individuals and has customers from the greater St. Louis metropolitan area. Criminal activity in Saint Charles City is to some degree attributable to persons who reside outside the city and who live in the greater St. Louis metropolitan area. Saint Charles City has several major shopping centers, including Bass Pro, Sam's, Wal-Mart, Lowe's, Home Depot and Target. Since the last census, there has been an influx of legal and illegal aliens into Saint Charles City.

Agency response

The percent of total persons stopped by police during 2001 (white-47.2%; black-49.4%) was fairly proportional to the number of such persons aged 16 and over residing in the City of St. Louis (white-47.6%; black-46.6%). While the reports reflect that only 6.8% of the persons stopped were searched, a disproportionate number of the persons searched were black (80.0%) as compared to whites (18.2%). One of the primary reasons for this difference is the department requirement for a search incidental to lawful arrests of persons searched. Because of this requirement, some 83% were black, as compared to 15.7% who were white. One of the major reasons for arrest was the existence of outstanding warrants (white-121; black-852). Also, the number of blacks consenting to a search (923) was greater than the number of whites (243). The rates in the 2001 report remain consistent with the rates in the 2000 report.

Agency response

While the data compiled in this report is informative, any conclusions drawn from the data must be tempered with common sense. For example, population data used to calculate the disparity index does not include members of the minority community that reside in the city of St. Louis and therefore, increases the diversity of drivers on the roads within St. Louis County. Nor does the data reflect that in a majority of traffic stops, police officers do not know the race of the driver prior to initiating the traffic stop. The St. Louis County Police Department has a long standing policy prohibiting all investigative detentions, traffic stops, arrests, searches or seizures of property based solely on race, ethnicity, gender, sexual orientation, religious belief, disability or economic level. All commissioned officers have participated in cultural diversity and sensitivity training and specialized training which prohibits the illegal practice of racial profiling. The St. Louis County Police Department will continue to gather and monitor the data required in this report to ensure our officers continue to respect the rights of every individual.

RACIAL PROFILING DATA/2001

Agency: St. Marys Police Dept.

Population: 300
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	84	82		2			
Searches	3	3		0			
Arrests	0	0		0			
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	92.00		1.67			
Disparity index	N/A	1.06		1.43			
Search rate	3.57	3.66		0.00			
Contraband hit rate	0.00	0.00		#Error			
Arrest rate	0.00	0.00		0.00			

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

The city of St. Robert is the business hub of Pulaski County and shares a common boundary with Fort Leonard Wood. Although the 2000 census data indicates a population of under 3,000 persons, it is estimated that the daytime and transient population generated by Fort Leonard Wood approaches 30,000 people.

Agency response

We have a major highway running through Sugar Creek and we have received three grants to work traffic on this highway. Those efforts have included DWI, speed, careless and reckless driving, and seatbelt enforcement. The racial makeup of the traffic on this highway is in no way reflective of the population of Sugar Creek. The Sugar Creek Police Department does not in any way participate in or endorse any type of discrimination based on race, gender or any other prohibited factor.

Agency response

Three major highways, two federal and one state, crisscross Town and Country and carry an estimated 400,000 plus vehicles through our community daily. The intersection of I-64 and I-270, located within the city, is reported to be the second or third busiest intersection in the state. Analysis shows that the overwhelming majority of the department's traffic enforcement occurs on the three referenced major highway systems, and that the city's residential population is in the minority in comparison to others traveling through, visiting, worshiping or working within its boundaries. It can be reasonably concluded that the racial makeup of those utilizing these highways is more proportionate to a combination of state, county and St. Louis City population and associated ratios than to the city of Town and Country proper. Therefore, it is our belief that the city's traffic enforcement activities are in harmony with both the provisions and intent of the state's Racial Profiling Law requiring that vehicle stops be proportionate to the population groups residing or traveling within its jurisdiction.

Agency response

The campus of North Central Missouri College is located within the city limits of Trenton. The population of the college is not included in the census. This contributes to the 3.57 disparity index for the 12 stops of black motorists. U.S. Highway and state route 6 intersect in Trenton. The city of Milan, 25 miles to the east, has a large percent of Hispanic population. There is a large number of Hispanics who travel through Trenton to and from Milan.

Agency response

Urich has as part of its city limits a four-lane highway. A great deal of traffic uses Highway K as a cut through to the four-lane road from the south. I believe that the number of minority stops reflects a transient population. I would also question the reliability and accuracy of the percentages because of the low number of stops of Black drivers.

RACIAL PROFILING DATA/2001

Agency: Van Buren Police Dept.

Population: 695
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	64	58	3				
Searches	2	2	0				
Arrests	2	2	0				
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	96.69	0.43				
Disparity index	N/A	0.94	10.86				
Search rate	3.13	3.45	0.00				
Contraband hit rate	50.00	50.00	#Error				
Arrest rate	3.13	3.45	0.00				

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.

Agency response

The city of Webster Groves is part of a major metropolitan area whose population travels daily upon our streets. A major interstate highway and several north/south feeder streets are included in our traffic network and are heavily traveled by non-residents in their commute to work and business. In addition, Webster Groves has several shopping and recreational areas that are heavily patronized by a large number of non-residents. This transient population is well documented in that over 80% of traffic citations are issued to non-residents. Consequently, any statistical model wherein the resident population of the city of Webster Groves is solely used for analysis is seriously flawed.

Agency response

The following is offered as additional information to further clarify and help put the data in fuller context. Located within the city limits are six major chain hotels and two major chain car rental agencies who employ Blacks as a large percentage of their work force. Woodson Terrace is bordered to the east by the city of Berkeley, whose major population is black. Located within the city limits are two Mexican restaurants, two Mexican groceries, one Hispanic currency exchange, and an insurance brokerage firm whose primary clients and work force are Hispanic. I-70 and state highway 115 travel east and west through the city and state highway EE travels north and south, with these major routes connecting Woodson Terrace to the surrounding and outlying area. The northern city limits adjoin Lambert St. Louis International Airport, which attracts a diverse segment of the population (including Black and Hispanic) with access via I-70 and state highway 115.

Population: 1,898
age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	42	42					
Searches	5	5					
Arrests	1	1					
Statewide population %	N/A	85.24	10.25	1.85	1.17	0.41	1.08
Local population %	N/A	99.00					
Disparity index	N/A	1.01					
Search rate	11.90	11.90					
Contraband hit rate	40.00	40.00					
Arrest rate	2.38	2.38					

Notes: Population figures are from the 2000 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.
Contraband hit rate = (searches with contraband found / total searches) X 100.
Arrest rate = (arrests / stops) X 100. #Error indicates zero denominator.
